PROFESSIONAL SUMMARY

Senior Frontend Developer with 8+ years of expertise in JavaScript and Angular ecosystems. Proven track record in architecting scalable solutions, optimizing performance, and delivering exceptional user experiences. Strong collaborator experienced in agile environments, committed to writing clean, maintainable code and staying current with emerging technologies.

PROFESSIONAL EXPERIENCE

Ancient Gaming

Nov 2023 – Present

Front-end Developer

- **CSGORoll Project:** Engineered real-time betting features using Angular 12/20, GraphQL, and NgRx for state management, improving application stability and user engagement.
- Spearheaded the development of a user favorites system, enhancing personalization and customer retention.
- **Hypedrop Project:** Developed core user interface flows (Login, Password Reset, Account Pages) utilizing the Qwik framework for optimal performance and Builder.io for dynamic content management.
- Championed UI/UX improvements and collaborated closely with backend and design teams in an agile workflow.

Solution25

Jun 2022 – Oct 2023

Front-end / Angular Developer

- Contributed to a large-scale Volvo car configuration and purchase module, adding complex features within a structured codebase.
- Enhanced and maintained features for the Cisco Health Care project, ensuring reliability and user satisfaction.
- Wrote and maintained end-to-end tests using Cypress and implemented performance optimizations for a Service Plan application.

UNE

Nov 2021 – May 2022

Frontend Developer

- Focused on user experience (UX), design refinement, and mobile-first responsive optimization for web applications.
- Developed front-end components using Vue.js and Sass, bundled with Webpack, and integrated with Laravel backends.

ATIS

Feb 2020 – Oct 2021

Frontend Developer

- Architected and developed a booking application from the ground up using Angular, implementing features like form management and state handling.
- Built sophisticated forms for a client project (Edea) and created Single Page Applications (SPAs) with lazy loading and advanced routing for optimal performance.

Celonis

Aug 2018 – Oct 2020

Frontend UI Developer

- Engineered reusable UI components and implemented complex data filtering and visualization features using Angular and Sass.
- Developed interactive charts and data tables to present complex process mining data clearly and effectively.

Open Data Kosovo (ODK)

Jun 2018 – Sep 2018

Frontend Developer

- Completed an internship, contributing to a project using Bootstrap and PHP, focusing on front-end development and implementation.

NEO DESIGN

Feb 2017 – Aug 2017

User Interface Developer

- Enhanced website designs and interactivity using JavaScript, jQuery, and Bootstrap frameworks.

Freelance

Jan 2014 – Jan 2017

Frontend Developer

- Self-taught core web technologies through hands-on project development.
- Built portfolios and applications using React, Vue, Angular, and Python, while practicing algorithms and problem-solving.

EDUCATION

Bachelor of Science in Computer Science and Engineering

University for Business and Technology (UBT), Pristina, Kosovo
Graduated: January 2014
